

TASK ORIENTED PRACTICES

MASTER ALPHABETICAL INDEX

1. GENERAL

1.01 This section provides an alphabetically-arranged listing of the telecommunications products and service offerings covered by Task Oriented Practices (TOP). Each entry is cross-referenced to the appropriate division of Bell System Practices (BSP). Only the first three digits of the 9-digit divisional numerical index (XXX-000-000) are shown. In each divisional numerical index, a TOP is identified by a solid triangle (▲) preceding the assigned 9-digit number.

1.02 Whenever this section is reissued, the reason(s) for reissue will appear in this paragraph.

1.03 Recommendations for changes to this section should be submitted on Form E-3973 as specified in Section 000-010-015, How to Comment on Bell System Practices.
